

Lecture organized under Ewing lecture Series by the Physics Society

The second lecture of the current academic session under Ewing Lecture Series was organized by the Physics Society on 22nd September 2023. This lecture was organized for B.Sc. 5th semester Physics students. Former head of the Physics Department, Dr. R. P. Khare, delivered this lecture. Head of the department Dr. A. K. Shukla introduced the speaker in the beginning of the lecture. Dr. Khare discussed important concepts involved in Biprism experiment. Students actively participated in this program and could gain hands-on experience in the dark room. Dr. Anjani Kumar Singh, retired faculty member of the department graced the occasion. Faculty members of the department were also present. Dr. P. K. Khandai proposed the vote of thanks.
